The United Nations Sustainable Development Goals (UN SDGs) consist of 17 global goals to be achieved by 2030, established by the international community to realize universal human development and harmonious growth between humanity and nature.

ITAC is committed to integrating the UN SDGs into its sustainability management strategy, striving to minimize negative social and environmental impacts throughout our business operations and to carry out responsible management practices that benefit the global community.

ESG Management Practice Declaration

All executives and employees of ITAC recognize that ESG management is directly linked to sustainable organizational growth and the achievement of management goals. As such, we hereby declare the following as the standards for actions and value judgments to actively practice sound and responsible ESG management.

1. We actively pursue eco-friendly management for a clean and bright future generation, striving to address the climate crisis and achieve carbon neutrality by 2050.
2. We engage in active communication with all domestic and international stakeholders, fulfilling our social responsibilities and obligations as a member of the global community.
3. We respect and protect human rights, create safe workplaces, and establish a positive organizational culture to enhance employee satisfaction.
4. We strengthen transparent management by complying with laws and establishing fair governance structures, while expanding ethical and compliance management practices.
